

BAKON SPRAY-MIX

for spraying oil, egg wash and other cold liquid ingredients

The machine

The Bakon Spray-Mix is designed for spraying egg wash or pan grease, oil, bun wash, sugar, syrups and many other cold liquid ingredients direct from the packaging onto your products and virtually any shape or size can be coated.

The Bakon Spray-Mix is easy to operate. The fully adjustable liquid and air pressure control, as well as the spray gun adjustments ensure accurate results and consistent quality with each application.

The main features

- no handling of a pressured tank, thus
- more hygienic
- adjustable liquid and air pressure
- very easy to clean and to maintain

Bakon's Spray-Mix is ready to be connected to a compressor or any in-line air system. Can be supplied with or without mobile trolley.

The technical details:

Spray pressure	: adjustable from 0.5 - 2 bar
Liquid pressure	: adjustable from 0.5 - 2 bar
